Subject: Sparx Science Homework Information

I hope this message finds you well. I am writing to inform you about the arrangements for Science homework this academic year.

Science homework will be set weekly via **Sparx Science**, which uses the same login details as Sparx Maths. Homework will be assigned every **Wednesday** and must be completed by the following **Tuesday**.

This consistent routine is designed to help students manage their workload effectively, develop strong study habits, and reinforce the learning that takes place in class. Your support in encouraging your child to complete their Science homework on time is greatly appreciated, as it will positively impact their progress.

If you experience any issues accessing Sparx Science or would like further guidance, please do not hesitate to get in touch.

Kind regards,

Mr B Delve
Science Head of Faculty
