

18th June 2026

Dear Parents/Carers,

Re: School Uniform Update – Hot Weather Arrangements

You may be aware that higher temperatures are expected over the coming days. In response, we are making some temporary adjustments to support students' comfort and wellbeing during the school day.

From tomorrow, Friday 19th June, through to Wednesday 24th June, blazers and ties will be optional for all students. We hope this added flexibility helps students remain comfortable while still maintaining a smart and appropriate appearance.

Please ensure your child brings a refillable water bottle to school each day and uses break and lunchtime to keep it topped up. To minimise disruption to learning, students will not be permitted to leave lessons to refill bottles.

If temperatures increase further, we will also consider allowing students to wear their PE kit on designated days and will communicate this clearly should it be introduced.

We will continue to monitor the weather closely and will communicate any further updates if needed. For now, please assume that normal uniform expectations will resume from Thursday 25th June, unless we notify you otherwise.

Thank you, as always, for your continued support in helping us look after the wellbeing of all our students.

Yours sincerely,

Mr Swift
Deputy Headteacher
