

Headteacher: Mr D. Whales | Chair of Governors: Mr A. Brown

24th June 2026

## Dear Parents/Carers

We understand that families may be concerned about the current very high temperatures forecast this week.

Please be reassured that we are taking sensible steps during the school day to keep children safe, cool and well hydrated. From today until the end of the week, we have introduced a very short additional break between lessons to allow children to refill their water bottles and use the toilet. Children will still have their usual break and lunchtime these short breaks are in addition to support appropriate hydration.

As per our previous communication, PE kit remains the most sensible option for the rest of this week. Please support us by making sure that the kit meets the uniform guidelines in particular girls' shorts should not be Nike Pro style but should be thigh length.

Children should continue to attend school as normal unless they are unwell. You can support us by ensuring your child brings a water bottle to school each day, has sun cream applied before school, and, where possible, brings a sun hat or cap.

Thank you for your continued support during this period of very hot weather.
