

Headteacher: Mr D. Whales | Chair of Governors: Mr A. Brown

Dear Parent/Carer

Exciting News!

We're thrilled to introduce the new **Pupil Progress mobile app** for students and parents in Year 10 (moving into Year 11).

What is it?

The Pupil Progress app is a new tool that gives you simple, clear information about your child's strengths and the areas they need to focus on following the recent exams.

How we have used it so far

- Parents received a physical copy at the Information Evening yesterday showing their individual strengths and targets. Remaining students will receive this via tutors.
- **Advice is to use this booklet over the Summer to help them revise more effectively.**
- The app will now allow you to see the same information digitally.

Please note that the summary page has not been fully set up, so please refer to the reports sent home prior to the parents' evening in May. Furthermore, there may be a few subjects currently missing information- please ignore these gaps.

How to Get Started

1. **Open this email on your phone** and download the Pupil Progress App:

- **For iPhones:** [tap here to download the app](#)
- **For Android phones:** [tap here to download the app](#)

2. **IMPORTANT** (even we got this bit wrong when testing the system)...

- **You will receive a separate email** with details on how to set up your account.
- **Please open that email on your phone** and follow the instructions provided.

More Information and Help

Guidance for setting up your account can be found here:
