Dear Parent/Carer

RE: TRIPLE SCIENCE OPTION AND ENTRY

Your son/daughter chose Triple Science as one of their option subjects. At the year 8 pathways evening it was explained that students needed the appropriate attitude and aptitude to successfully study for Triple Science.

All students are currently studying the Triple Higher content. Consequently, I am writing to explain that your son/daughter could be at risk if they do not apply themselves and demonstrate the expected levels of commitment of either being moved to Triple Foundation or Combined Higher or Foundation after the year 10 or year 11 mock exams.

The appropriate attitude would be, being on task and fully engaged in all lessons and completing all Sparx Science homework and the appropriate aptitude would be at least three grade 5's in each of their year 10 and/or year 11 mock exams in the three Triple Science subjects.

I am sure that we as the Science Teaching team, your son/daughter and yourselves can work closely together to ensure that your son/daughter maximise progress and achieve the best possible outcomes.

I thank you for your support regarding this matter,

Kind regards,

Mr B Delve
Head of Science Faculty
