

KEN STIMPSON COMMUNITY SCHOOL CAREERS SUMMER 2023

CATCH US ON  

Welcome to our **Summer** Newsletter!

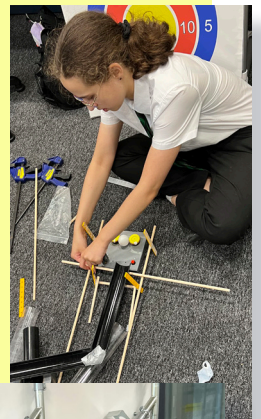

INTERVIEWS

In June, our Year 10 students had mock job interviews with local businesses. A big thank you to Anglian Water, Barclays Bank, Aldrich Group, Cross Key Homes, Willmott Dixon, NHS, the Army, the Department for Work & Pensions, and Galliford Try for supporting this valuable opportunity for our students!

ENGINEERING!

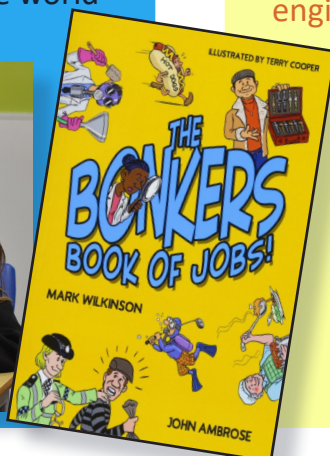

June 23rd was International Women In Engineering day and we took a group of Year 9 students for an Engineering Experience day organised by Oundle School. Students participated in activities in aeronautical, civil, and mechanical engineering, and mechatronics. They also had Samidha Anand, Engineering Manager for Caterpillar Inc. UK, deliver a presentation to the students. We wish to congratulate

the students who also won the prize for the best team in the Aeronautical engineering activity. Well Done!

READING!

Our Year 7s have been enjoying reading the 'Bonkers Book of Jobs' during tutor time. The book is a humorous and informative trip through the wide world of jobs!

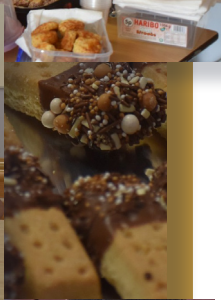

KEN STIMPSON COMMUNITY SCHOOL

CAREERS

SUMMER 2023

£1 CHALLENGE!

In the Spring, students in Year 7 were given a 'Dragon's Den' style '£1 Challenge' in which participants were each given £1 to start a business enterprise and raise money for charity! So, to top off an unusually hot and sunny June, they organised an afternoon of games, cakes and refreshments for the school, as well as a round of the ever-popular game 'Soak the Teacher!' Thanks to all who came and contributed during the event, and to all the teachers who got soaked!

CONSTRUCTION!

In June, our Year 10 students began the 'Green Village' project, delivered by Willmott Dixon Construction. The session explored key roles in the construction industry, and as a team they undertook the various roles involved in planning, designing and building a village!
