

27th June 2023

Dear Parent/Carer

Safer Schools Update

We are advising parents that this service was booked for today and can assure parents that this process was carried out in line with police dog handling guidelines.

One of a school's responsibilities is keeping children safe (part of the 'Keeping Children Safe in Education' guidelines from the government and DfE) and as part of this process, we work alongside our local Police Safer School liaison officer. As a deterrent, we have in the past sought the services of police dogs trained to find/detect illegal substances.

Today there have been no substances found on site and we will be using these services in the future, again with no forewarning but advising of the event on the day.

Regards

Mr D Whales
Acting Principal
Ken Stimpson Community School
