Easter Half Term Intervention Sessions

Dear Parent/Carer

During this coming half term, we will be running vital intervention and revision sessions to support the progress of our examination group students. The schedule of sessions being offered for Science is included below for Thursday 4th April. Your son/daughter has been chosen to receive this invite by their subject teacher. It is highly recommended they attend these sessions to close any gaps in their knowledge and gain further confidence in preparation for their summer examinations.

A positive attitude and good behaviour are essential to the success of these sessions. As these are targeted revision sessions, it is imperative the sessions remain disruption free. Should students' behaviour affect their learning, or the learning of others, the teacher reserves the right to dismiss students from the session.

Foundation	Higher	Triple	All sessions held in 1L15/1L07/3L26
Chemistry 1L15	Biology 1L07	Physics 3L26	10-11.30am
Physics	Chemistry	Biology	11.45-12.30pm
Lunch break on school site			
Biology	Physics	Chemistry	1-2.30pm

As part of these sessions, students will be introduced to predicted paper questions which have proven in the past to help move some forward by at least a grade. As the exams are fast approaching, we would welcome your support in ensuring your child attends.

If you have any questions, please feel free to contact me directly.

Yours faithfully

Nicola Chalmers
Second in Faculty, Science
