SUMMER 2022

CATCH US ON  

Welcome to our Summer Careers Newsletter!

RICS INSPIRE WORKSHOPS

In July, Year 9 students were involved in the Royal Institute of Chartered Surveyors (RICS) Inspire Workshops! Students worked in small teams and completed project-based tasks and challenges designed to provide a "taster" of the numerous careers within the industry. These tasks reflected various aspects of surveying and project management and the skills needed. All teams then pitched their ideas to the presenters. Well Done Year 9!

ON TO COLLEGE!

A small number of Year 11 students have visited Peterborough College to ease their transition ready for September! We had a guided tour of the college and students were able to meet and chat with the teachers. It was good to see some of our students who started last year doing so well in their courses!

WHAT SKILLS DO YOU NEED TO SUCCEED?

KEN STIMPSON COMMUNITY SCHOOL CAREERS SUMMER 2022

PLATINUM Afternoon Tea

The Queen's Platinum Jubilee celebrations were not only important for Her Majesty, but also a festive occasion for our students in Year 10, and members of the local community! This was the first community event to be held in school since the pandemic. Local residents were able to enjoy entertainment and afternoon tea. A massive thank you to all students who did a fantastic job! We look forward to organising more events in the new academic year!

JOB INTERVIEW TRYOUTS!

We were really grateful to have a number of external professionals in school in June who conducted Mock Interviews with some of our Year 10s. This was a really beneficial experience for our students and they came away with some great constructive feedback which we hope they will use in the future!

JOB OF THE MONTH

GEOSCIENTIST

SUMMER 2022

TALL SHIPS

Between 20th and 24th June some of our students took part in the Tall Ships Challenge. They enjoyed swimming and learned the basics of sailing, such as raising and lowering the sails and various knots required to secure the boat as they travelled throughout the English Channel. This was a once-in-a-lifetime experience that will remain with the students forever!

PROBLEM SOLVING!

In June our students were given the task of solving real-world problems by speaking with employees at Topolytics and using cutting-edge data visualising tools!

UPCOMING DATES:

5th October, 5:30-7:30pm
Stamford College
open evening

13th October, 6-8pm
Peterborough College
open evening
