The Construction and Engineering sectors can provide a wide range of opportunities, and in March we had the opportunity to take some Year 10 students to an event hosted at

Stamford college, run by SLGTA.

Students were able to engage in practical hands on activities with industry experts. Congratulations to the many students receiving individual awards, and as a school we were awarded the **School of Excellence** award by George Barnsdale!

During **World of Work** day in March, many **Year 10 students** experienced a day at a work place with family or friends. Others remained at school and took part in a variety of activities, including a Myth Buster workshop delivered by Stamford college, an Army presentation and a Careers escape room!

We recognise that Parents and Guardians can have a huge influence on a young person's next steps. When asked by their teenager 'What should I do next?' many parents can feel overwhelmed. So much has changed since they left school/college, which is why **Careermag** for Parents, Carers and Guardians aims to inform parents so their young people can feel supported - whether they'd like to go to University, do an Apprenticeship, Work Experience or T Levels.
