

## SOCIAL STORY TEMPLATE .....

A social story needs to have a title, introduction, body and conclusion.

### All about Exams

Sometimes teachers give tests or exams to see what pupils have learnt in lessons	You can be given a test or an exam in any subject you study at school	When a teacher tells the class they have a test or an exam they often tell the pupils what information will be covered.	What can I do if I'm not confident in that subject
It is helpful to listen to what the teacher says and do some revision.	Who can I speak to if I am unsure what to revise?	Sometimes pupils feel nervous before or during an exam.	It is OK to feel nervous.
What can I do if I feel nervous?			

Social Story Template.....

Asking questions such as where, when, who, what, how and why? Will help give you context to the story.

**During an Exam....**

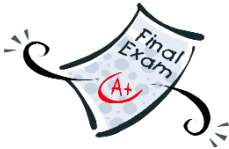

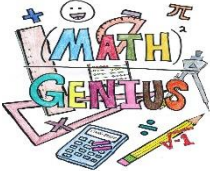

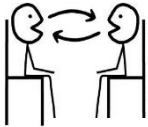

You will receive a timetable of when your exam will be and what time.	During the Exam, it's important to try and think about the questions and how to answer them.	That way you can complete the exam to the best of your ability.	Later when the exam is finished, you may want to think about your intense interests.	It's OK to think about your interests but it needs to be after the exam.
I will try to think about exam questions and answers only during the exam.	What can I do to help me focus?			

SOCIAL STORY TEMPLATE .....

You can use words to help build the story like above and add pictures if necessary, or your student/child may prefer images and to talk through it verbally? Every child is different which is why social stories are individual to each learner.
